 Paris, France

PROFILE

After spending two years in Toronto, I'm preparing my return to France and actively exploring opportunities on the local market. As a Frontend Developer and former Graphic Designer, I bring four years of experience in web development. I'm skilled in designing and implementing design systems, and proficient with Vue, React, Angular, TypeScript, and more.

Available from February 2026 in Paris and the surrounding area.

EXPERIENCE

Webmaster - TFO

Toronto, Canada (Jul. 2024 - Présent)

- Coordinate and update information across digital platforms using the company's content management tools. ([Wordpress](#), [Sitecore](#), [Directus](#) & [Louise](#))
- Manage activities related to content creation (image selection, titles, descriptions, etc.).
- Write web content optimized for [SEM](#) and [SEO](#).
- Contribute to website content strategies.
- Analyze website traffic using analytics tools and provide recommendations to improve site performance. ([Google analytics](#), [Algolia](#) & [Clarity](#))

Frontend Developer - Inkas

Toronto, Canada (May 2024 - Jul. 2024)

- Designed responsive, visually appealing, and intuitive web mockups. ([Adobe XD](#) & [Figma](#))
- Developed websites and web applications for the company's subsidiaries. ([ReactJS](#), [Wordpress](#), [HTML](#), [CSS](#), [JavaScript](#) & [PHP](#))
- Ensured design consistency and brand alignment across all web properties.

Frontend Engineer - Vade

Hem, France (Mars 2023 - Dec. 2023)

- Contributed to the creation of the company's design system as the lead developer, based on Figma prototypes provided by the UX/UI team.
- Designed and implemented the architecture of a complete design system.
- Developed design system components. ([Vue 3](#), [Tailwind](#), [TypeScript](#) & [Storybook](#))
- Set up CI/CD pipelines to automate testing, deployment, and version releases of the design system on GitLab.
- Documented each component in Supernova to ensure smooth integration and future scalability of the design system.

Frontend Engineer - Leavy

Paris, France (Dec. 2021 - Mars 2023)

- Designed and developed the front-end of the back office for user, property, and payment management. ([Figma](#), [Vue](#), [TypeScript](#) & [Stripe](#))
- Developed the client-side interface based on Figma prototypes from the UX/UI team, enabling client registration, apartment description editing, and booking management. ([Vue](#) & [TypeScript](#))
- Implemented end-to-end tests ([Cypress](#))
- Collaborated with the backend team to integrate the platform's API.
- Designed and developed email templates (registration, password reset, booking notifications) and integrated them into the application for automated sending. ([Figma](#) & [Mailjet](#))
